

FAST FACTS FOR SMALL BUSINESS OWNERS | MEDICAL OFFICE AND HEALTH PROFESSIONALS

PROTECT YOUR MEDICAL OFFICE AND HEALTH PRACTICE WITH THE HARTFORD.

BUSINESS OWNER'S POLICY

Most small medical and healthcare practices purchase a Business Owner's Policy (BOP). It can help protect your business in much the same way that a homeowner's policy helps protect your home and personal possessions. The Hartford's Business Owner's Policy includes:

- **Business Property Insurance** to help protect the property you own, lease or rent.
- **Business Liability Coverage** to help protect your business from claims alleging you were negligent which caused injury or damage.
- **Business Income Coverage** to help replace lost income if your business is forced to temporarily close after a covered damage to your premises or your tools/equipment.

OPTIONAL COVERAGES MEDICAL PRACTICES LIKE YOURS OFTEN BUY

In addition to among the most robust liability and property coverages available, The Hartford offers optional coverages that are easily added to your policy and offer protection for a broad range of risks unique to medical practices.

Business Income for Interruption of Practice gives you the flexibility, for many business income claims, to determine how you'll be paid for lost income. You can select a daily limit option between \$500 and \$5,000, which requires less paperwork and doesn't deduct for rescheduled patient appointments; or actual loss sustained.

Data Breach helps you pay for response expenses if the sensitive personal information (e.g., patient medical records, Social Security numbers) you collect or store is lost or stolen. This includes expenses for notifying patients, employees or government agencies as may be required, and good faith advertising services and credit monitoring, if warranted. You can also purchase coverage that helps cover defense costs, settlements, and judgments if your practice is sued because of a covered data breach. There's even coverage that helps protect your income if you need to suspend or slow down your business operations because of a covered data breach.

Temperature Change provides coverage if perishable medicines are lost due to temperature change resulting from a loss of power, the breakdown or failure of heating or cooling equipment, or contamination by a refrigerant.

Accounts Receivable provides coverage if you're unable to collect amounts due from your patients because of covered damage to your accounts receivable records.

Reimbursement of Legal Expenses for a Court or Review Board provides coverage for defense costs if you're required to appear before a civil court or state review board because of a disciplinary action that arises as a result of your professional activities.

Many optional coverages offered by The Hartford are also available in cost-effective packages called Stretch® endorsements. This gives you the flexibility to customize your insurance program while offering good value for your insurance dollar.
